RE: ANNUAL FEE FOR USE OF WATER FROM FIRE HYDRANTS

Dear Angie Rich:

The City of Cleveland Codified Ordinance No. 535.28 enacted December 13, 1982, relating to the annual fee for use of water from fire hydrants by direct service municipalities, provides in part that:

- 1) Each direct service municipality shall pay an annual fee in advance for the use of water from fire hydrants.
- 2) The annual fee per hydrant shall be calculated as of January 1<sup>st</sup> of each year by multiplying one half mcf (500 cf) times the highest rate then authorized to be charged to a direct service customer located in the service district in which each hydrant is located.

Therefore, the 2026 rates per hydrant for direct service municipalities are as follows:

a) Low and First High Service District	\$26.87 (\$53.73 per mcf x .50)
b) Second High Service District	\$33.08 (\$66.16 per mcf x .50)
c) Third High Service District	\$38.24 (\$76.47 per mcf x .50)

- 3) A certified statement of the number of fire hydrants in each service district in the municipality shall be submitted by an officer of the municipality on or before January 1, 2026.

***THIS IS NOT A BILL.*** The City of Cleveland will mail an invoice on January 6, 2026. All payments are due no later than February 6, 2026.

Our records indicate the Village of Mayfield has the following hydrants:

District	Count	Cost	Total Due
Low And First High Service	0	\$26.87	\$ 0.00
Second High Service	353	\$33.08	\$11,677.24
Third High Service	2	\$38.24	\$ 76.48
<b>Total Due</b>	<b>355</b>		<b>\$11,753.72</b>

Please review these figures, and sign and return the letter below if you agree. If you have any changes, please send the information along with this letter to the address below:
